OUTCOMES FOR APRN SPRING CONFERENCE:

Leadership/Scholarship

- Attendees will report enhanced motivation to improve nursing leadership skills in the areas of patient care, nursing self-care, mentor-ship of novice nurses, and/or clinical scholarship.
- Attendees will express augmented motivation to participate in education of either healthcare recipients or education of fellow participants in the provision of healthcare (student, novice, or expert).

Clinical

- Attendees will express a gain in new evidence-based knowledge for translation into clinical practice.
- Attendees will report a satisfactory review of standards of care for improvements in clinical practice.

Scholarship

- Attendees will evaluate nursing research presentations for efficacy and translation to practice.
- Attendees will express confidence in results presented of nursing research with intent to use in practice.

Pharmacology

- Attendees will report new or increased knowledge of specific medications included in controlled substance classes of medications, medication management of specific conditions, or prescribing parameters for new drugs, enabling improvement in prescriptive practices.

The Mississippi Nurses' Association is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.
