

“Advancing Early Alzheimer’s Detection and Diagnosis and Mitigating Co-Morbidities”

September 10, 2021 • Noon – 1:30 p.m.

Presented by Stephanie Monroe and Kim Tarver, MD | Moderated by Kathy Van Cleave, LMSW

Stephanie Monroe
Director, Equity and Access
UsAgainstAlzheimer's

Target Audience:

Health care professionals including, but not limited to, social workers, nurses, and patient educators, who provide preventative programs, clinical care and support to older adults, individuals experiencing memory loss and/or mild cognitive impairment, and family caregivers.

Objectives:

- Explore the benefit of early detection and diagnosis of Alzheimer's Disease and related dementias (ADRD) across cultures.
- Describe knowledge of aging and physical health issues common to older adults, caregivers, and those living with ADRD.
- Identify caregiving resources to affect care and support of older adults and those living with ADRD.

Continuing Education information:

This activity has been approved for 1.5 hours (1.0 General, .5 Diversity) for Social Workers by the Mississippi State Board of Examiners for Social Workers and Marriage and Family Therapists (MSBOESWMFT). Approval # 21.18

Mississippi Nurses' Association is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.
